

## SAFEGUARDING TRAINING

*We deliver Safeguarding training tailored to your needs and level with flexible & professional delivery.*

The Serious Case Reviews into abuse in childcare settings & schools identifies just how crucial it is for all staff, employed & volunteering, teaching & non-teaching, to have a clear understanding of what abuse is and of their individual responsibility to use the settings/schools procedures for reporting any concerns.

Training can be delivered flexibly, including in the workplace – for this the minimum group size is 12.

Specific content for individual schools/settings can be included in the course if required and flexible times can be arranged if at the workplace.
